NOW, THEREFORE, in consideration of the mutual covenants and agreements contained herein, and for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto hereby agree as follows:

### **AGREEMENT:**

#### **ARTICLE ONE: INCORPORATION OF RECITALS**

The recitals stated above are an integral part of this Agreement and are hereby incorporated into this Agreement by reference and made a part hereof.

#### **ARTICLE TWO: THE WORK**

2.01 Assessment by Fleet. Fleet will perform a mechanical condition assessment excluding initial body and collision assessment of all CTA Equipment when a unit of non-revenue Equipment is first scheduled for maintenance and repair. Such assessment will use the form which is described in Exhibit A. CTA will also provide an electronic copy of the distribution represented in Exhibit A. CTA reserves the right to add and/or delete mutually agreed upon units to this non-revenue equipment distribution.

2.02 Non-Revenue Equipment Description. Non-revenue Equipment subject to this Agreement is listed in Exhibit B (the “**Equipment**”). Non-revenue Equipment includes off-road construction equipment and on-road vehicles and trucks. The definition of non-revenue Equipment does not include: (I) transit buses; (ii) dedicated rail units; (iii) grass cutting or lawn maintenance equipment or tools; (iv) power hand-held tools; (v) boats; (vi) boat engines; (vii)

hand powered and operated snow removal equipment; or (viii) other marine or harbor equipment.

2.03 Work Transition Dates/Prior Contracts. Fleet will begin performing Work on the non-revenue Equipment on a mutually agreed date.

2.04 Description of Work.

(a) Small Repairs, Routine Maintenance. Fleet will perform small repairs, routine maintenance, wash services and preventive maintenance on non-revenue Equipment as requested by CTA or, when the CTA otherwise approves a Fleet work order for the Work desired.

(b) Large Repairs. If large repairs on a unit of non-revenue Equipment are indicated (either by request of the CTA or by recommendation by Fleet), then a specific document in the form of Exhibit C authorizing large repairs must be signed by the designated CTA representative. For purposes of this Section, “**large repairs**” are repairs to a unit of non-revenue Equipment costing individually or in the aggregate \$3,500 or more by Fleet’s good faith estimate.

(c) Description of Repairs. Fleet is prepared to provide full service Work to the CTA. Work on Equipment may include but not be limited to maintenance and repairs to mechanical components, engines, body work, glass, electrical systems, hydraulic systems and tires, and other work, and may include repair and/or replacement of parts. All Work will be performed by trained service technicians.

(d) Subcontracted Work. Fleet has several subcontracts with vendors to perform various types of repair work on vehicles. If the Work that is required on CTA non-revenue Equipment is Work that Fleet has subcontracted to a vendor, such vendor may perform the required Work on the CTA non-revenue Equipment. Fleet will pass-through the charges for the Work performed by subcontracted vendors to the CTA at the contracted service price per unit including parts plus 5% administrative fee. Fleet will bill for such passed through charges as a

part of its regular billing to the CTA. CTA reserves the option to subcontract with vendors other than the City of Chicago to perform various types of repair work on vehicles for which the CTA will directly pay the vendor. Fleet will inform CTA of any unusual PM (preventive maintenance) notifications as they occur.

(e) Cost of Work. All labor hours for Work performed will be billed utilizing the agreed upon shop rate of \$110.52 per hour (the “**Shop Rate**”). Fleet will review its Shop Rate on an annual basis and decide whether to adjust the Shop Rate to reflect increases in Fleet’s labor costs or other costs associated with performing the Work. The effective date of any changes shall be January 1st of the following year. In the event that there is a change in the Shop Rate, CTA reserves the right to terminate within 180 days of the effective new date with no increase to the originally agreed Shop Rate.

(f) Scheduling and Priorities. Fleet reserves the right to control and adjust the scheduling of any Work and the priority of any specified Work. Consistent with its overall scheduling and priority requirements as a City Department. Fleet will use its best efforts to perform all Work in a timely manner. The CTA must provide Fleet with a current Daily Equipment Requirement Listing.

(g) Delivery and Pick-up. Unless otherwise agreed to by Fleet, CTA will be responsible for delivery of non-revenue Equipment to Fleet’s maintenance locations and will be responsible for pick-up of non-revenue Equipment when Work is completed. The CTA, however, reserves the right to invoke the provisions delineated in paragraphs 2.09 and 2.10. CTA will be responsible for delivery, coordination and shuttle for these purposes as appropriate and as determined by CTA. Shuttle and delivery of CTA units to and from outside vendors from Fleet facilities will be the responsibility of Fleet.

(h) Non Repair Service Request At the request of the CTA, Fleet Management will install or implement tools, accessories and certain products (i.e. dome lights on vehicles) to allow for greater use and/or management by CTA personnel that can be procured via existing or future City contracts.

## 2.05 Wash Service

(a) Contract Commercial Locations. Upon development of policies and guidelines for this purpose, and at the CTA's option, the CTA may utilize Fleet's accounts at the various commercial wash service locations in the City under contract with Fleet and listed in Exhibit D for cars and smaller trucks. If the CTA uses this service, Fleet will pass-through the wash service charges, to the CTA at the contracted wash service price per unit plus a 5% administrative fee. Fleet will bill for such passed through charges as a part of its regular billing to the CTA. Fleet's billing for this service must include the vehicle's pin [VIN] number and the name and badge number of the CTA employee who delivers a vehicle for wash service.

(b) In-Service Locations. Fleet is presently negotiating new wash service contracts with third-party vendors for in-service wash services for Equipment that cannot be washed at commercial locations because of size or configuration. If CTA uses this service, charges to the CTA for in-service wash services will be on a pass-through basis, at the contracted wash service price per unit plus a 5% administrative fee. Fleet will bill for such passed through charges as part of its regular billing to the CTA.

2.06 Emissions Testing/Other Governmental Requirements. As owner of the non-revenue Equipment, the CTA is responsible for meeting emission test requirements and other governmental requirements applicable to its non-revenue Equipment. Fleet has no responsibility or duty under this Agreement for emission testing or other owner responsibilities. If non-revenue Equipment fails to meet emission test requirements, then Fleet will repair any such non-revenue Equipment pursuant to a Fleet work order approved by the CTA and pursuant to the provisions of this Agreement.

2.07 Parts. On June 7, 2000, the City Council approved an ordinance authorizing an agreement between Fleet and Genuine Parts Company d/b/a NAPA Auto Parts (“NAPA”) for parts supply and parts management. NAPA will perform the parts inventory supply management and delivery functions presently performed by Fleet and Fleet personnel at a time (the “**cut-over date**”) to be established. After the cut-over date, when NAPA is responsible for parts inventory, management and supply, Fleet will charge the CTA for parts used in the Work on a pass-through basis, dollar-for-dollar. Charges to the CTA will include a 5% mark-up to cover administrative fees and consumable materials used in the performance of maintenance and/or repair services. Such consumable products typically include items such as aerosol lubricants/cleaners, rags, oil absorbents, etc.

2.08 CTA Parts Inventory.

(a) Parts Used Under This Agreement. On a mutually agreed date, and as determined by the respective CTA and Fleet representatives under this Agreement, the CTA will transfer an agreed inventory (value of parts) to Fleet for credit by Fleet for parts used in the Work. The respective CTA and Fleet representatives under this Agreement will meet to agree and sign for the transfer of the agreed inventory to Fleet.

(b) Credit for Parts. The agreed inventory (parts) will be credited against billings for Work until the value for such parts is depleted to zero. At the end of each month, Fleet will provide the CTA with an accounting of all parts used, the credit given for each part used, and the remaining balance of the parts credit available to the CTA.

(c) Unnecessary or Obsolete Parts Inventory. Unnecessary or obsolete parts inventory will be removed by the CTA from the Beverly Garage prior to the transfer of parts described in subsection (a) above.

2.09 Road Service. Fleet will provide road service for CTA non-revenue Equipment at the agreed upon Shop Rate plus one-half hour travel time for each road service call performed by one technician.

2.10 Towing. At the option of the CTA, Fleet will provide towing services for disabled CTA non-revenue Equipment. Towing services will be provided by Fleet Management's regular private contractor towing services under contract with Fleet. The contract cost for towing will be passed through to the CTA, dollar-for-dollar. Charges to the CTA will be based on vendor invoice plus a 5% mark-up to cover administrative fees. Fleet will bill for such passed through charges as a part of its regular billing to the CTA. Fleet will provide the CTA with current contract pricing for such tows. Fleet will update price list as changes occur.

2.11 Defective Workmanship.

(a) CTA Inspection. The CTA agrees to promptly inspect all completed Work within 7 days and to promptly bring Re-Work to Fleet's attention. Fleet agrees to make a good faith determination whether any Work is a new assignment or Work that qualifies as Re-Work. Re-Work will be performed by Fleet at no cost to the CTA.

(b) Cooperation. Both Fleet and the CTA agree that they will work in good faith and harmony and with full cooperation to resolve any issues arising from or out of Re-Work.

2.12 Manufacturer Recall. Upon receipt of notification of manufacturer's recall from the CTA, Fleet will coordinate the manufacturer's recall work through its respective dealership network.

2.13 Representatives/Dispute Resolution.

(a) Representatives. Fleet's representative to administer this Agreement is named in Exhibit E-1 (the "**Fleet Representative**"). The CTA's representative to administer this Agreement is named in Exhibit E-2 (the "**CTA Representative**"). Both Fleet and CTA will also appoint an Alternate Representative to serve in the event the Primary Representative is unable to serve.

(b) Dispute Resolution. If the Fleet Representative and the CTA Representative cannot agree on a resolution of issues arising from or out of this Agreement, including but not limited to:

- (I) Work within the scope of this Agreement
- (ii) Work scheduling
- (iii) Charges for Work
- (iv) Re-Work
- (v) Charges for Re-Work
- (vi) Work Priorities
- (vii) Work under manufacturer's or dealer's warranty

then, the Fleet Representative will promptly report any such disagreement to the Commissioner of Fleet and the CTA Representative will promptly report to the Vice-President of Facilities Maintenance. The Commissioner and the Vice-President are responsible for promptly resolving any such disagreement in good faith and in a cooperative manner.

### **ARTICLE THREE: FUNDING**

3.01 Beginning one month after the mutually agreed start date the CTA will pay all invoices submitted by Fleet within 30 days from the invoice date. If the CTA fails to pay an invoice, then the City may cease the Work and terminate this Agreement by providing written notice to the CTA. Unpaid invoices over 60 days shall result in a 1.5% late fee on any outstanding balance.

3.02 Within 30 days after execution of this Agreement, or such longer period of time as agreed to by the Commissioner, but in no event later than December 1, 2008, the CTA will provide Fleet with copies of all active warranties for the non-revenue Equipment and the duration of such warranties. If Fleet discovers that Work to be done on a certain piece of non-revenue Equipment is covered by a warranty, Fleet will notify the CTA of such warranty, and Fleet and the CTA will decide at that time how the Work will be performed. If Work is performed on non-revenue Equipment pursuant to a warranty by an entity other than Fleet, Fleet reserves the right to inspect such Work after it is performed. Fleet shall not be responsible for

Work that is performed on a piece of non-revenue Equipment which may violate or terminate a warranty on such piece of non-revenue Equipment if Fleet does not know such warranty exists.

3.03 CTA will provide Fleet with reasonable access to records relating to the non-revenue Equipment as requested by Fleet. Fleet will provide CTA with read only access to its M4 computer system (Fleet maintenance data base). Access will be through lines for 5 terminals located at the CTA Beverly Garage. CTA will provide terminals and data lines for this purpose.
